

PISTA – Technical Data

PISTA is a characterful vintage semi-aniline leather with a beautifully polished surface that exudes classic elegance and timeless style. Inspired by the English design tradition, the leather adds a refined and exclusive expression to any interior.

The antique surface and distinctive play of colours allow for an active use of the material’s expression, where use and touch enhance its depth and nuances. The result is a leather that evolves over time, creating a unique and personal character in the final design.

PISTA is particularly well suited for reupholstering classic furniture as well as for interiors in restaurants, bars, and other environments where an authentic and exclusive look is desired. It is an ideal choice for projects where craftsmanship, material understanding, and aesthetics come together.

Note

Semi aniline leather has a protective surface while still maintaining a natural appearance. Minor variations in colour and texture may occur and are part of the leather’s character.

Regular care is recommended to maintain the leather’s softness and appearance.

Product Information

- **Leather type:** Vintage semi aniline leather
- **Application:** Reupholstery, furniture, restaurants, and bar interiors – residential and contract
- **Average hide size:** approx. 4.5 m²
- **Thickness:** 0.9 – 1.1 mm
- **Raw material:** North American and European hides
- **Tanning:** Chrome tanned
- **Environment:** Produced without the use of PCP and CFC and complies with all limits and standards for Chromium VI as well as the REACH declaration

	Method	Test result
Light fastness	DIN EN ISO 105-B02 / IUF 402	3
Rubbing fastness, dry, 100 rubbings	DIN EN ISO 11640 / IUF450	≥4
Rubbing fastness, wet, 40 rubbings	DIN EN ISO 11640 / IUF450	≥4
Rubbing fastness, sweat, 20 rubings	DIN EN ISO 11640 / IUF450	≥4
Tear strenght	DIN EN ISO 3377-1 / UIP 40	≥20 N
Flexing endurance	DIN EN ISO 5402 / IUP20	≥20.000
